APPENDIX I.

[Vide answer to starred question No. 5 asked by Sri R. Suryanarayana Rao at the meeting of the Legislative Council held on the 16th September 1947, page 20 supra.]

EXPLANATORY NOTE.

Post-war schemes of the Government of Madras which are assisted from Central Grants are given in the attached statements. The schemes are classified as 'Interim' schemes (List A) and schemes included in the post-war development programme for 1947–48 (List B).

List A.—Interim schemes are schemes which were selected from among those in the five-year plan with the prior approval of the Government of India for execution during the interim period, i.e., the period between the termination of the war and the beginning of the post-war quinquennium (1st April 1947), with the special object of counteracting deflation and unemployment. In respect of such of those schemes as were unproductive, grants amounting to Rs. 230 lakhs have been received from the Government of India in recoupement of the full unproductive expenditure incurred in 1945–46 and 1946–47. These are called advance grants as they are made in advance of the post-war quinquennium. The advance grants will be counted against the total block grant to be made to Provinces by the Central Government during the first quinquennium of the post-war period (1947–48 to 1951–52).

List B.—Contains the unproductive post-war schemes included in the programme for 1947–48. (Productive schemes have been excluded as they are financed from loan money and are therefore not eligible for the Government of India's grant).

The schemes include both

(*a*) interim schemes already in progress which will be continued in 1947–48; and

(*b*) schemes which have been or will be taken up afresh in 1947–48 from the five-year plan.

The Government of India have sanctioned a block grant of Rs. 625 lakhs for 1947–48 subject to any alterations that may be made by the successor Government. This block grant is intended not only for post-war schemes executed or under execution in 1947–48 mentioned in the List B but also for Grow More Food Schemes, schemes for the further education of ex-servicemen and training abroad of students, medical personnel and nutrition workers. The block grant of Rs. 625 lakhs allotted by Central Government for 1947–48 is likely to fall short of the expenditure in that year on unproductive post-war schemes, Grow More Food, etc., which is estimated roughly at Rs. $10\frac{1}{2}$ crores. As the name 'Block Grant' implies it is not intended to be allocated among the various post-war schemes, Grow More Food Schemes, etc.

[16th September 1947

The Government of India may increase the block grant if the excess expenditure is caused by rapid progress in the execution of Grow More Food schemes. Any such increase in the 'Block Grant' allowed in 1947–48 will be adjusted against the block grants for the subsequent years in the first quinquennium. Any expenditure in 1947–48 uncovered by the grants from the Central Government will be met from Provincial revenues.

LIST 'A'.

LIST OF POST-WAR SCHEMES OF THE GOVERNMENT OF MADRAS WHICH ARE ELIGIBLE FOR CENTRAL GRANTS.

Serial number.	Scheme number in the five-year plan.	Name of the scheme.	Total expenditure incurred up to 31st March 1947.*
